

— APPS 2025 — Australasian Plant Pathology Society Conference 2025

26-28 MAY 2025, ICC SYDNEY AUSTRALIA

APPS is dedicated to the advancement and promotion of plant pathology and its practice in the Australasian and Indo Pacific Regions. Our work is of international significance and our conference draws in delegates from across the globe.

Our 2025 theme “From Field to Future, Scientific Collections and Plant Pathology” aims to put the spotlight on collections, highlighting their role in research and biosecurity and how they can be used, and improved.

Plus all your favourite plant pathology topics!
